Policy Discussion Date:	
Anticipated Adoption Date:	

SUPPORTING BACKGROUND ON NEXT PAGE

Mayor and City Council Agenda Item Request

Supporting Background Information:

An interdepartmental committee was formed September 2013 to discuss implementation of the Adopted Bicycle portion of the Transportation Element of the 2009 Master Plan. This Element was adopted in September 2010. This group included members from City Manager's Office, Public Works, Parks, Recreation & Culture, Community & Public Relations, and Planning & Code Administration. The plan was evaluated and members conducted a field survey of the proposed routes. Based on the plan recommendations, the field survey, existing funding allocations, staff proposes to implement the recommendations with funds from the Capital Improvement Project CIP-79-3. The presentation will outline different types of Bicycle Facilities (Shared Road, Marked Shared Lanes or Sharrow, Bicycle Lanes, and Shared Paths.) Additionally, staff will outline a proposed plan to complete most of the On-Road Bicycle Facilities by the end of June 2016.
